Subject: RE: West Lake Landfill: question from community on NRRB access
NRRB Community Guide.docx

...

Hi Dan – no, meeting w/ me or the Board is outside of the scope of our process. States and Tribes may participate in the presentation and Q&A portions of our reviews but that is the extent of our face-to-face contact with stakeholders during a review. The CAG is welcome to summarize in writing, 20 pages (up to 40 pages may be submitted for sites where the estimated remedial action costs exceed \$100M) or less, any technical issues they believe are pertinent to the cleanup decision, including their rationale and recommended approach for site cleanup. The CAG's submission should be included in the site information package sent to the Board members for review.

I've attached our Community Guide. It may be helpful when you get back to the CAG.

Subject: West Lake Landfill: question from community on NRRB access

Amy, at the last CAG meeting for West Lake, the community asked whether it would be possible for the CAG, or a subset of it, to meet with the NRRB and ask questions. It sounded like they wanted their own meeting with you separate from the eventual Region 7 presentation to the NRRB on the new proposed plan. I told them I would find out if such a meeting was possible. Please let me know.

Thanks,

Daniel R. Gravatt, PG
